👤 PROFESSIONAL SUMMARY

I'm a passionate full-stack developer specializing in both Web2 and Web3 technologies, offering a 4+ years of experience providing a high impact web solution for diverse of organizations. Skilled in designing, developing and testing multiple web-based applications incorporating a range of technologies and with expertise in Next.js and Solidity, I build modern, scalable applications that bridge the gap between traditional web development and blockchain technology.

My journey began with traditional web development, mastering JavaScript, React, and Node.js. As blockchain technology emerged, I expanded my skills to include Solidity, Ethereum, and Web3.js, allowing me to create decentralized applications that leverage the best of both worlds. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. I'm constantly learning and exploring new technologies to stay at the forefront of this rapidly evolving field.

💼 EXPERIENCE

FREELANCE – WEB3

Feb. 2024 - Present.

- Delivered a complex web development project on time and within budget, resulting in client satisfaction and repeat business.
- Built strong relationships with clients, leading to long-term contracts and consistent work.
- Learned and integrated new tools or technologies (like mastering a new programming language or design software) to provide a broader range of services.
- Received multiple 5-star reviews and testimonials praising my communication, creativity, and problem-solving skills.
- Developed and executed a personal branding strategy, which increased inbound client inquiries and project opportunities by 50%.
- Managed several freelance projects simultaneously, delivering each on time and without sacrificing quality.

SOFTWARE DEVELOPER (CONTRACT) – KNIGHT SOFTWARE SOLUTIONS, UK

March, 2022 - Jan. 2024

- Collaborated with the team to design and develop a comprehensive fleet tracking admin system for monitoring the activities of a transportation company.
- Developed the front-end of the admin system, ensuring a user-friendly and intuitive interface for tracking and managing fleet operations.
- Implemented responsive web design principles to make the admin system accessible on various devices.
- Utilized JavaScript, React.js, and other modern web technologies to create interactive features and real-time data visualization.
- Integrated real-time tracking APIs to provide accurate location data and status updates for the fleet.

AREA OF EXPERTISE

- Software Design
- Web Development
- UI/UX Design
- Agile Development
- Digital and Interactive Design
- Blockchain

SKILLS HIGHLIGHTS

- JavaScript.
- Html.
- Css.
- Redux
- Solidity
- WEB3JS
- Hardat
- React Js.
- React-hooks.
- Nextjs.
- Sass
- Typescript
- Tailwindcss
- Git
- GitHub

HOBBIES

- Reading
- Writing
- Travelling
- Music
- Meeting new people
- Indoor games

SOFTWARE DEVELOPER (FULL TIME) – BLINQPAY, UK

Jan. 2020 – Sept. 2022

- Played a crucial role in the development and enhancement of Blinqpay's financial technology (FINTECH) web products.
- Collaborated with a cross-functional team of techpreneurs, financial experts, and software engineers to drive innovation in the African Fintech space.
- Developed and maintained the front-end of Blinqpay's web applications, ensuring a seamless user experience and a modern interface.
- Utilized JavaScript, React.js, and other web technologies to create responsive, user-friendly features for financial applications.
- Worked on projects related to online payment processing, financial management, and customer account access.
- Conducted regular testing and optimization to improve the performance and reliability of web applications

SOFTWARE DEVELOPER (FULL TIME) – TECH365, NIGERIA

March, 2019 – Dec. 2020

- Played a key role in the development and maintenance of web applications at Tech365.
- Collaborated with the development team to design and implement user-friendly interfaces for various web projects.
- Utilized front-end technologies such as HTML, CSS, and JavaScript to create visually appealing and interactive features.
- Worked on projects related to web development, user interface design, and responsive web design.
- Conducted regular testing and quality assurance to ensure optimal performance and cross-browser compatibility.
- Contributed to the ongoing improvement and optimization of web applications

SOFTWARE DEVELOPER (INTERNSHIP) – BINCOM DEV CENTER, NIGERIA

Jan. 2019 – Aug. 2020

- Gained valuable experience during an internship at Bincom Dev Center, a prominent software development company.
- Assisted the development team in various front-end tasks and projects.
- Worked on web development projects, enhancing skills in HTML, CSS, and JavaScript.
- Collaborated with senior developers to create and maintain web interfaces and user experiences.
- Contributed to responsive web design, ensuring consistent usability across different devices

🎓 EDUCATION

MERNSTACK
Brain Temple.   **2019**

B.Ed. GUIDANCE AND COUNSELLING
University of Lagos, Nigeria.   **2018**

SENIOR SECONDARY CERTIFICATE
Faban Fortress College, Nigeria.   **2012**

CERTIFICATIONS

Uniswap Hook Incubator April, 2025
Artrium Academy

Advanced Blockchain May, 2024
Sail Innovation LAB
